DATE MAILED: 08/07/2002

Notice of Fee Increase on October 1, 2002

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2002, then the amount due may be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on October 1, 2002. See Revision of Patent and Trademark Fees for Fiscal Year 2003: Notice of Proposed Rulemaking, 67 Fed. Reg. 30634, 30636 (May 7, 2002). Although a change to the amount of the publication fee is not currently proposed for October 2002, if the issue fee or publication fee is to be paid on or after October 1, 2002, applicant should check the USPTO web site for the current fees before submitting the payment. The USPTO Internet address for the fee schedule is: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after October 1, 2002 (or mailed with a certificate of mailing on or after October 1, 2002), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Effective October 1, 2002, 37 CFR 1.18 is proposed to be revised to change the patent issue fees as set forth below. As stated above, the final fees may be a different amount, and applicant should check the web site given above when paying the fee.

(a) Issue fee for issuing each original or reissue patent, except a design or plant patent:

By a small entity (Sec. 1.27(a))--\$655.00

By other than a small entity--\$1,310.00

(b) Issue fee for issuing a design patent:

By a small entity (Sec. 1.27(a))--\$235.00

By other than a small entity--\$470.00

(c) Issue fee for issuing a plant patent:

By a small entity (Sec. 1.27(a))--\$315.00

By other than a small entity--\$630.00

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the claims are drawn to detecting lung cancer in a sputum specimen comprising determining a microsatellite marker length alteration relative to a control sample, wherein a microsatellite marker length alteration in the specimen relative to the control sample indicates the presence of a cancer in a lung that which drains into the sputum. The claims are further drawn to detecting bladder cancer in a urine specimen comprising determining a microsatellite marker length alteration relative to a control sample wherein a microsatellite marker length alteration in the urine sample relative to the control sample indicates the presence of a cancer in an organ which drains into the urine. The claims are also drawn to a method of detecting cancer of an organ in a specimen of a body fluid which drains the organ wherein the specimen is selected from the group consisting of urine, sputum, bile, stool, cervical smears, tears, cerebral spinal fluid, and lymph nodes comprising detecting a microsatellite marker length alteration relative to a control sample, wherein a microsatellite marker length alteration in the specimen relate to the control sample indicates the presence of a cancer that drains in the organ which drains into the bodily fluid. The claims are allowable over the prior art because the prior art does not teach or fairly suggest a method of detecting bladder cancer or lung cancer or a cancer of an organ by detecting a microsatellite length alteration relative to a control sample in any of the following specimens: urine, sputum, bile, stool, cervical smears, tears, cerebral spinal fluid, and lymph nodes. The claims are

Art Unit: 1634

allowable over the closest prior art of Brugieres, in view of Gonzalez-Zulueta, Merlo, and Ah-See because the claims no longer recite detecting a microsatellite length alteration in a blood sample vs a control sample.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
